ABOUT ME

I am a passionate self learner resorted to youtube and google to gain knowledge, currently looking for a challenging opportunity as a frontend developer.

My Linkedin profile : <https://www.linkedin.com/in/farhanah-mohammed/>

EXPERIENCE

Nov, 2022-Feb, 2023 SOFTWARE DEVELOPER INTERN

Cloudot , India

- Did an internship in a startup company from Kerala, contributing to their customer experience management software.
- Tech stack used are **Typescript**, **NextJs** and **ChakraUI** for the front end. Backend is powered by **NodeJs**, **MongoDB** and **GraphQL**.
- Implemented a phonenumber input UI component with dropdown menu and validated it using awesomephonenumber library.
- Changed some of the chakra components from selects to menus for a better UI.
- Participated in discussions along with other team mates on improving UI.
- Closely worked with senior developer to implement a feature of downloading customer reviews as banners, keeping up with SEO and best practices
- Was assigned tasks from time to time to make minor changes on various parts of the UI.
- Solved some existing bugs in the codebase.
- Was able to familiarize with libraries such as axios, formik, yup, lodash, rebass, satori etc.
- Familiarized with schemas in graphql and to fetch datas using Apollo Client.
- Exposure on the working of NodeJs, Express, MongoDB and Mongoose.
- Worked on website optimization to improve page load time and user experience.
- Learned how to integrate the front end with backend and to create endpoints in the backend for a **restful API**

EDUCATION

2011 – 2015

KANNUR UNIVERSITY

Bachelor of Engineering in Computer Science
