SUMMARY

Looking for a challenging opportunity as an entry level front-end developer, where I could use my theoretical knowledge and practical experiences to add value to the firm. Along the way hoping to learn new skills and technologies that would add up to my existing technical knowledge by being part of a great company.

CERTIFICATIONS

RESPONSIVE WEB DESIGN CERTIFICATION

from freeCodeCamp.org

- Learned the basics of web development.
- Built a survey form, a technical documentation page, a tribute page, a product landing page and a personal portfolio as part of the certification projects using HTML and CSS.
